WORK EXPERIENCE

Front-end Developer

IMAGIN.studio

09/2024 – present

Amsterdam, Netherlands (hybrid)

Responsibilities:

- Developing and maintaining two web applications: one built with Flutter, tailored for web; and another using React/Next.js with Node.js-based Cloud Functions.
- Gaining hands-on experience with Firebase and Cloud Firestore services.
- Taking sole ownership of a large-scale initiative, covering everything from initial planning and data structure design to UX design and implementation—ensuring scalability, performance, and alignment with business goals.

Front-end Engineer

Zoover

10/2021 – 04/2024

Rotterdam, Netherlands (hybrid)

Achievements:

- Grew from junior to medior role through consistent delivery of high-quality work.
- Achieved a 78% increase in conversion rates and halved technology costs by meeting all tech OKRs outlined in the annual roadmap.
- Deployed features using A/B testing, leading to a 7.5% increase in micro-conversion rates on the homepage.

Responsibilities:

- Debugging, refactoring, and implementing features in the codebase using Next.js, TypeScript, and associated technologies.
- Guiding junior team members by introducing best practices, coding standards, and project-specific knowledge.
- Close collaboration with backend, designer, SEO specialist and stakeholders on an everyday basis.

Front-end Developer

SD-Insights

03/2020 – 10/2021

Delft, Netherlands (hybrid)

- Building the front-end of the NEXTdriver coaching environment and the portal for customers in React.js.
- Developing a navigation (MyRoad) and a coaching (MyCoach) application in Flutter from scratch.
- Rebuilding the company's main product (NEXTdriver) in Flutter.

EDUCATION

Full-stack Developer Trainee

Codaisseur

10/2019 – 12/2019

Amsterdam, Netherlands (on-site)

#1 Code Academy in the Netherlands • 11-week • full-time

- Learning full-stack web development, including JavaScript with React.js, Redux, Node.js, REST APIs, PostgreSQL, and how to build cutting edge web applications using popular frameworks and libraries.
- Only 35% of the applicants are accepted and 70% of them graduate due to the intensity and difficulty of the program.
